

Carlsbad Unified School District
... a world class district

Client:

Carlsbad Unified School District

Completion Date:

August 17, 2009

Total Dollar Value:

\$ 1,189,000

Professional Services:

\$ 280,000.00

(Incl. in Total Dollar Value is Design, Engineering, Programming & Installation etc.)

Project Description:

Classroom audiovisual presentation systems based on Extron PoleVault systems.

CLIENT PROJECTS

Digital Networks Group's challenging task set by the Carlsbad Unified school district was the installation of 375 classroom AV presentation systems in less than two months.

To achieve this goal Digital Networks worked hand in hand with GAFCON, the construction management company, contacted by Carlsbad USD. GAFCON's AV project managers led by Dion Herrington played an integral part in Digital Networks successful completion of this project. The managers, even though not on location, were responsive and provided all necessary information as needed and as quickly as possible.

In order to complete the project it was imperative that Digital Networks deployed one of their top installation teams. The team of installation technicians, who completed technical training at Digital Networks' own training center, worked hard under the project management of Dash Spitale to complete the 375 classroom project within the scheduled 50 day project duration. Asked about the most challenging part of the project Dash Spitale replied: "First of all it was the extremely tight schedule and secondly it was the different types of rooms and ceiling highs. But, despite of all of this, working with a crew of 7-13 highly motivated technicians made it possible to reach our goal".

Rick Lewis, the Director of Technology at Carlsbad USD, supported the AV installation project by providing wireless network access points, other network solutions and his expertise and knowledge of the district's technology infrastructure.

Staffing:

Mike Stammire - Account Manager
Ted Milhaven - Project Engineer
Dash Spitale - Project Manager

Project Duration:

October 2004 – present
